ACADEMIC SUMMARY

Software Engineering undergraduate student with a strong interest in Data Science, Machine Learning, Artificial Intelligence, and Explainable AI (XAI). Experienced in developing AI-powered web applications and intelligent software solutions using Python, Flask, PostgreSQL, and modern web technologies. Currently preparing an undergraduate thesis on Cyberbullying Detection using Machine Learning, Deep Learning, and Explainable AI, with a focus on trustworthy and interpretable AI systems.

EDUCATION

- Daffodil International University** 2023-present
Bsc in Software Engineering CGPA: 3.00/4.00
- Monipur Uchcha Vidyalaya and College** 2019-2021
Higher Secondary School Certificate, Dhaka Board GPA: 4.86/5.00
- Government Rupnagar Model School and College** 2017-2019
Secondary School Certificate, Dhaka Board GPA: 4.56/5.00

THESIS/RESEARCH

- Undergraduate Thesis (Planned)** Expected 2026–2027
Cyber Bullying Detection in Social Media using Machine Learning, Deep Learning, and Explainable AI (XAI)
 - Research focuses on detecting cyber bullying content from social media platforms using Machine Learning and Deep Learning techniques.
 - Aims to enhance model transparency and interpretability through Explainable AI (XAI) methods such as SHAP and LIME, enabling better understanding of prediction outcomes.

PROJECTS

- NutriConnect** 2026
AI-Powered Nutrition and Food Management Platform
 - Developed an AI-integrated web application for personalized nutrition recommendations and meal management.
 - Implemented BMI tracking, meal logging, food ordering, and nutritional analysis features.
 - Built using Python, Flask, PostgreSQL, SQLAlchemy, HTML, CSS, JavaScript, and Bootstrap.
 - Applied Role-Based Access Control (RBAC) for users, food providers, and administrators.
- Car Parking Management System** 2024
A Java-based parking management application for efficient vehicle parking and slot monitoring.
 - Tools & technologies used: Java, Object-Oriented Programming (OOP), File Handling, Collections Framework
 - Developed a console-based system with user registration, authentication, role-based access control (Admin/User), parking slot allocation, vehicle tracking, and persistent data storage using file handling.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, Java, C, SQL, HTML, CSS, JavaScript
Developer Tools: Git, GitHub, VS Code, PyCharm, Jupyter Notebook, PostgreSQL, MySQL Workbench
Frameworks: Flask, Bootstrap, SQLAlchemy
Databases: PostgreSQL, MySQL
Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Time Management, Critical Thinking
Coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Object-Oriented Programming, Artificial Intelligence, Machine Learning, Data Science
Areas of Interest: Data Science, Machine Learning, Artificial Intelligence, Big Data Analytics, Web Development, Explainable AI (XAI)

POSITIONS OF RESPONSIBILITY

- Member,** Software Engineering Club, Daffodil International University 2023 – Present
- Member,** Data Science Club, Daffodil International University 2023 – Present

ACHIEVEMENTS

- Infinity AI BuildFest 2026 Finalist** NutriConnect project selected for the final stage 2026
- Python Programming Certification** Completed a professional Python programming course 2025
